**Auto Safety Campaign In High Gear**

The greatest all-out safety promotion effort ever staged in the West is now under way, with the new car dealers of Southern California offering a complete free auto safety check to every motorist.  
June has been proclaimed as "Check Your Car, Check Accidents Month" in Southern California and every car owner is urged to avail himself of this unprecedented offer, which is being made in conjunction with the "Operation Safety" program of the National Safety Council.  
Heading the campaign locally is John Ott, Thatcher and Ott, DeSoto-Plymouth agency; Paul Loranger, Paul's Chevrolet; George Peckham, Schultz and Peckham, Ford Dealers; and Arthur Mullin, Mullin's Service, Oldsmobile dealer.

The four local new car dealers stated that absolutely no obligation is involved with these checks which are being offered purely as a public service by the motor car dealers.  
The safety check includes an inspection of fog lights, head-lights, horn, wheels, brakes, windshield wiper, rear lights, tail lights, stop lights, muffler, steering gear, ignition, and fuses.

The free check is offered to anyone driving to one of the above mentioned dealers.  
"Operation Safety" is a year-round traffic education program and each month, some organization takes the responsibility for the promotion of this program.  
The motor car dealers are joining with most of the major religious, business and civic groups in the effort to reduce the number of accidental deaths.  
They stated that even the best drivers can not avoid accidents if they are driving unsafe automobiles.

"We believe that by pointing out to the public the small mechanical defects which so often cause major accidents, we can save many lives," it was declared.  
The "Check Your Car, Check Accidents" program in Southern California is the endorsement of the California Highway Patrol, Sheriff's Office, Police Departments and the National Safety Council.
